DETAILED ACTION

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Simkanich, Registration No. 26,036 on March 11, 2002.

2. The application has been amended as follows:
 - a. Cancel claims 1-22.

Remarks

3. The examiner notes that Applicant has included a paper with the amendment filed on January 16, 2002 having the heading "Information Disclosure Statement". The examiner notes that an Information Disclosure Statement identically listing that prior art was filed on June 13, 2001. The examiner considered copies of the documents listed thereon to the extent possible, initialed the I.D.S. as appropriate and included a copy of the signed document with the first Office Action on the merits, mailed July 20, 2001.

Art Unit: 3627

As noted at that time:

"The information disclosure statement filed June 13, 2001 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each U.S. and foreign patent; each publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered.

Due to the quality of the photographs provided and complete lack of functional/structural description, the examiner cannot determine if the "Suzuki Latch", "Toyota Latch", Nissan or Mazda Latch", Lexus Latch", "Latch", or "Nissan Latch" (items 1-6) are relevant to the claimed invention or not. Accordingly, the latches illustrated therein could not be considered and the portions of the I.D.S. corresponding to these items have not been initialed."

Essentially, the photos listed on the I.D.S. do not provide sufficient disclosure to raise a prima facie case for teaching or making obvious the limitations of the present invention.

However, since it cannot be determined from the photos alone, if the subject structures of those photos do not teach or make obvious the claimed invention, each appropriate I.D.S. listing of those photos has not been initialed. Applicant was timely informed of the above during prosecution and a signed copy of the first I.D.S. is provided with this Office action where it should be noted that the listed items that could not be fully considered have been lined through and have not been initialed.

The additional copy now provided by Applicant remains with the Papers of the Application and has been marked "COPY".

Allowable Subject Matter

4. Claims 23-36, 38-53, and 55-58 are allowed.

Conclusion

5. Submission of your response by facsimile transmission is encouraged. Group 3627's facsimile number is **(703) 305-3597**. Recognizing the fact that reducing cycle time in the processing and examination of patent applications will effectively increase a patent's term, it is to your benefit to submit responses by facsimile transmission whenever permissible. Such submission will place the response directly within our examining group and will eliminate Post Office processing and delivery time and will bypass the PTO's mail room processing and delivery time. For a complete list of correspondence not permitted by facsimile transmission, see MPEP 502.01. In general, most responses and/or amendments not requiring a fee, as well as those requiring a fee but charging such fee to a Deposit Account, can be submitted by facsimile transmission. Responses requiring a fee which applicant is paying by check should not be submitted by facsimile transmission separately from the check.

Responses submitted by facsimile transmission should include a Certificate of Transmission (MPEP 512). The following is an example of the format the certification might take:

I hereby certify that this correspondence is being facsimile transmitted to the Patent and Trademark Office (Fax No. (703) 305-3597) on _____
(Date)

Typed or printed name of person signing this certificate:

(Signature)

If your response is submitted by facsimile transmission, you are hereby reminded that the original should be retained as evidence of authenticity (37 CFR 1.4 and MPEP 502.02). Please do not separately mail the original or another copy unless required by the Patent and Trademark Office. Submission of the original response or a follow-up copy of the response after your response has been transmitted by facsimile will only cause further unnecessary delays in the

Art Unit: 3627

processing of your application; duplicate responses where fees are charged to a deposit account may result in those fees being charged twice.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gary Estremsky whose telephone number is (703) 308 - 0494. The examiner can normally be reached on M - Th from 730 am to 600 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Katherine Matecki, can be reached on (703) 308-2688. The fax phone number for this Group is (703) 305-3597.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 308-2168.
